

## Vocabulary

On the next page, there are lists of words.

Each line has a word followed by a list of 5 words.

Only one of the 5 words is the definition of the first word.

On your answer sheet, under אוצר מילים:

Find the question number and mark an x on the letter of your answer.

Let's do two questions together:

\* **Rose**      a) red dress    b) flower      c) thorn      d) garland    e) type of a hat

The meaning of **Rose** is 'flower', which is answer b.

On your answer sheet, under אוצר מילים, find question \* and mark an x on b.

\*\* **Eldest brother**    a) the strongest brother      b) the tallest brother  
c) the brother that was born first      d) someone important      e) heir

The correct meaning of **Eldest brother** is 'the brother that was born first', which is answer c.

On your answer sheet, under אוצר מילים, find question \*\* and mark an x on c.

## COMPLETE THE SENTENCE

In each sentence on the following page, there is one missing word.

Under each sentence, there are five words – one of them is the correct missing word.

On your answer sheet, under השלמת משפטים:

Find the question number and mark an x the letter of your answer.

Let's do two questions together:

\* In Israel, it usually \_\_\_\_\_ in the winter.

- a) runs      b) eats      c) rains      d) wet      e) shivers

The right word is 'rains' which is answer c.

On your answer sheet, under השלמת משפטים:

Find question \* and mark an x on c.

\*\* Good friends on a journey make \_\_\_\_\_ go by faster

- a) the party    b) time      c) work      d) worrying    e) fun

The correct answer is 'time', which is answer b.

On your answer sheet, under השלמת משפטים:

Find question \*\* and mark an x on b.

## Find the similarity

On the following page, there are pairs of words. There is a certain connection between each two words.

Under each word pair, is a list of 5 word pairs. Find which of the 5 word-pairs has the same connection as the pair above.

Let's do two questions together:

**\*) notebook – pen**

- a)chalk-pencil      b) black-board      c)teacher-blackboard  
d) notebook-pupil      e) blackboard-chalk

**notebook-pen** : you use a pen to write in a notebook.

Therefore, the matching pair of words is 'blackboard-chalk' because you use chalk to write on the blackboard.

On your answer sheet, under גילוי הקבלות:

Find the question number \* and mark an x on e.

**\*\*) crying-sad**

- a) escaping-surprised    b)excited-sensitive    c)afraid-hiding    d) laughing-happy  
e) crying-cheerful

**crying-sad**: if someone cries, that means they're sad. Therefore, the matching pair of words is ' laughing-happy' because if someone laughs, that means they are happy.

On your answer sheet, under גילוי הקבלות:

Find the question number \*\* and mark an x on d.

## Words that do not belong

On the next page, there are lists with 6 words each.

In each list, there are 4 words that have something in common and 2 words that do not belong.

In each list, find the 2 words that do not belong.

On your answer sheet, under the מציאת יוצאי-הדופן:

Find the question number and mark x on the two letters of your answer.

Let's do two questions together:

\* a) Lilly      b) Daffodil      c) Lilac      d) Cactus      e) Rose      f) Orange

'Lily', 'Daffodil', 'Lilac' and 'Rose' are all flowers.

'Cactus' and 'Orange' are not flowers, therefore, they do not fit in, and they are answers d and f.

On your answer sheet, under מציאת יוצאי-הדופן:

Find question \*, and mark x on d and f.

\*\* a) table      b) couch      c) window      d) closet      e) coat  
f) chair

'table', 'couch', 'closet' and 'chair' are all furniture.

'window' and 'coat' are not furniture, therefore, they do not fit in.

On your answer sheet, under מציאת יוצאי-הדופן:

Find question \*\* and mark x on c and e.

## Arithmetic questions

On the next page, there are arithmetic questions. Under each question, there are 5 answers.

There is only one correct answer for each question.

On your answer sheet, under בעיות השבון, Mark x on the correct answer for each question.

This time, we will not do example questions together.

You may use the blank sheet of paper you had received to scribble your calculations.

1. If a third of a ruler is 40 centimeters long, what is the total length of the ruler?  
a) 5                      b) 25                      c) 100                      d) 220                      e) 120
2. Dan wants to buy books for 7 shekel each. How many books can Dan buy for 28 shekels?  
a) 5                      b) 20                      c) 4                      d) 7                      e) 6

ANSWERS: 1.e, 2.c

## Arithmetic

### TEST

This test consists of 40 questions in arithmetic. Five answers are presented alongside each question. Find the correct answer and circle the letter next to it. If you don't find the answer among the first 4 options, encircle the letter  $\pi$ , which means that the correct answer is not among the first four options. For every question, there is only one correct answer.

You can scribble your own calculations on the actual page or on the accompanying rough copy. Solve the exercises from top to bottom, in serial number order.

You will find some examples below. Solve them in numerical order, from top to bottom.

<p><b>Example 5</b></p> <p>250 .N    5 = 50% of what?</p> <p>25 .ב</p> <p>5 .ג</p> <p><math>\frac{1}{2}</math> .ד</p> <p>None of .ה the above</p>	<p><b>Example 3</b></p> <p>9 .N    What number can 6 .ב    replace R in this 4 .ג    addition?</p> <p>3 .ד    <math>\begin{array}{r} 7R \\ + R \\ \hline 88 \end{array}</math></p> <p>None of .ה the above</p>	<p><b>Example 1</b></p> <p>9 .N    Continue the series</p> <p>10 .ב    <math>\text{2 } \boxed{4} \text{ } \boxed{6} \text{ } \boxed{8} \text{ } ?</math></p> <p>11 .ג</p> <p>12 .ד</p> <p>None of .ה the above</p>
<p><b>Example 6</b></p> <p>1 .N    Which <u>single</u> 2 .ב    number can 4 .ג    replace the <u>two</u> question mark?</p> <p>8 .ד    <math>\frac{1}{?} = \frac{2}{4}</math></p> <p>None of .ה the above</p>	<p><b>Example 4</b></p> <p>13 .N    The total can be 11 .ב    divided without a 7 .ג    remainder, by:</p> <p>6 .ד    <math>\begin{array}{r} 18 \\ + 10 \\ \hline 17 \end{array}</math></p> <p>None of .ה the above</p>	<p><b>Example 2</b></p> <p>3 .N    What number can 4 .ב    replace P in this 6 .ג    addition?</p> <p>9 .ד    <math>\begin{array}{r} 5P \\ + 2 \\ \hline 58 \end{array}</math></p> <p>None of .ה the above</p>

You have 30 minutes. Proceed carefully and accurately. Don't spend too much time on one problem. If you are not sure of the answer, circle the answer which you think may be correct.

Do not turn over this page until instructed to do so.

# Test of Analytical Skills
